Journal ArticlesConference Papers**Preface**

This publication is a listing of journal articles and conference papers by Naval Research Laboratory authors for 1993. The bibliographic information is taken, primarily, from the Institute of Scientific Information database, *Science Citation Index Expanded*. Additional citations are generated from reprints of publications which are received in the Laboratory's Ruth H. Hooker Research Library. All references are unclassified.

Citations are arranged alphabetically by author. An author index is included at the end of the citation listing.

NRL authors who wish to amend this record should submit new or revised bibliographic information for their publications using the form provided at the end of this publication.

An HTML version of this publication is mounted on the Website of the Ruth H. Hooker Research Library - <http://infoweb.nrl.navy.mil>. That version includes an interactive form through which bibliographic information for additional journal articles and conference papers may be submitted to the Library.

1993 Bibliography of NRL Journal Articles and Conference Papers

Aaronson, H. I. Atomic Mechanisms of Diffusional Nucleation and Growth and Comparisons with Their Counterparts in Shear Transformations. *Metallurgical Transactions A-Physical Metallurgy and Materials Science*, **24**:241, 1993.

Aaronson, H. I.; Furuhara, T.; Howe, J. M.; Reynolds, W. T., and Spanos, G. Why Does the Phenomenological Theory of Martensite Crystallography Sometimes Quantitatively Describe the Surface Relief Effect and the Transformation Crystallography of Precipitate Plates? Interfaces: Structure and Properties. [Papers presented at an Indo-US workshop organized by the Dept. of Metallurgy, Indian Institute of Science, Bangalore, Nov. 30-Dec 2, 1989.] Aedemannsdorf, Switzerland: Trans Tech Publications Ltd., c1993. 169-193.

Abrams, R. H. and Parker, R. K. Introduction to the MPM: What It Is and Where It Might Fit. 1993 IEEE MTT-S International Microwave Symposium; Atlanta, GA. Meeting. Jun 14-18, 1993. 107-110, 1993.

Adams, J.; Rettig, W.; Duran, R. S.; Naciri, J., and Shashidhar, R. Langmuir Films of Liquid-Crystalline Materials - The Influence of Molecular Architecture on Morphology and Properties. *Physical Chemistry*, **97**:2021, 1993.

Bibliographic Information Submission

NRL authors who wish to amend this record should send new or revised bibliographic information for their publications on this form (which may be duplicated as necessary).

Please complete a separate form for each submission (addition or correction). Please do not abbreviate entries.

The on-line version of this document is located in the Library's InfoWeb - <http://infoweb.nrl.navy.mil> - interactive bibliographic submission forms are located with that Web-based document. The use of the interactive forms is our preferred method to receive new or corrected information

Paper-based bibliographic submission forms may also be used; they should be returned to:

Bibliography, NRL Code 5220

Bibliographic Information Submission - Journal Articles
